You were a very good TA, easily one of the best of the Econ 0100-200 TAs. I thought the way you worked through the practice problems was super engaging and actually helped us learn the application of concepts. Unfortunately, I did feel recitation was the only helpful part of this class. Lecture would teach us the basics of the concepts, but only in the recitation would we actually learn the content for the tests.

Great TA

The recitation for this course was when I did most of my learning for it. TA was able to communicate the information. I found myself wishing the TA was the one lecturing.

Chinmay was very helpful when it came to understanding lecture material, explaining the concepts in a different manner and asking us questions to check our understanding. I especially liked his visuals.

very strong TA. great communication skills

Chinmay is a very caring and supportive person! He consistently went out of his way to make sure we understood the material thoroughly and never hesitated to offer help when we needed it. His patience and willingness to explain concepts clearly made a real difference in my learning experience.

Chinmay was a great TA, he was very helpful in explaining key concepts.

Chinmay was a lovely TA and probably one of the best ones I've had since coming to Penn. So attentive and patient, puts effort into teaching in an accessible way.

I LOVE CHINMAY HE IS THE BEST TA EVER

He explained the concepts well, but I felt that the recitation material was often so much more difficult than even exam questions. However, the recitation quizzes were helpful in holding me accountable for understanding the content, which I believe helped me study for the exams.

Chinmay was the best TA I had all semester at Penn! He communicated very effectively and made everything really clear after the weeks lecture.

Chinmay was a fantastic TA and was very very helpful in recitation.

Chinmay was not helpful. His accent was really thick and I felt like I was more confused when I left class. I did not enjoy my recitation at all.

I really appreciate how much effort the whole ECON 0100 team puts into the course and I felt like I was very well supported throughout the semester.

CHINMAY IS THE BEST TA EVER!! Super friendly and open to questions, helping to clarify concepts

Amazing recitation lead

So nice!

na

Chinmay was amazing!! He was very approachable, likable, and kind to me and all of my peers. His explanations genuinely helped me grasp the content and he was very fair in all of his grading. He would stay back after recitations to answer our questions, as well!! During recitations, he would teach us some content that we had learned that week and then we would do practice questions together. He is excellent at using the black board to explain the solutions to questions and I found his visuals very helpful. 10/10 TA.

Chinmay was great!

Chinmay was a great TA! He was always available and willing to explain topics to me and I think that he did a great job of conveying tough concepts to us.

Chinmay was really good at explaining the concepts and made it very clear for us. He also remained engaging and empathetic, even when we were not the most focused.

Very good recitation and Chinmay was a phenomenal teacher, however it was challenging for him to get the entire class's attention.

Mr. Lohani was a wonderful TA that always answered my questions with energy. I can confidently say my success in this class is partially due to his reinforcement of concepts. Sometimes, I felt I did not fully understand an idea until I came to recitation where he further explained it.

Bad teacher great TA

TA was not very accessible during the week of the last exam. Wished we would have done more exam prep.

Chinmay was very attentive to our learning of concepts and the solving of economic equations. He gave all ample time to ask clarifying questions and had our understanding of the meaning behind the equations as a priority.

Chinmay is great!

Great TA and explained the concepts very clearly, always gave us time to ask questions and was very patient when we did not understand.

love him

Chimnay explained everything so well. He did a fantastic job.

I enjoyed Chinmay's effort and explanations but overall I felt it didn't truly build on what we had learned from class and simply caused more confusion at times

I really enjoyed the course and the principles of macroeconomics.

great TA

He was kinda hard to understand with the accent. Overall, very friendly man though and did a good job teaching the subject.

Good TA

Chinmay was a very good TA, I attended a different section once and realized that Chinmay was one of the better TA options.

Chinmay did a great job explaining lecture content.

Chinmay was a very good TA. He explained info clearly and concisely, and definitely improved my understanding in the class.

Recitation info and problem sets barely related to course content. TA is very smart but incredibly confusing and was not able to effectively communicate information or answer questions. Moved way too quickly.

The TA did an excellent job at explaining how to complete the recitation assignments, not only walking students through the mathematical steps, but expanding upon why these steps were taken. The TA was very kind and very helpful, always ensuring every student understood the concepts

I appreciated that the TA always paused for questions and clarifications, but I think a brief summary of the main takeaways from that week's lectures would've facilitated the recitations.

I think recitation was often cut a little too short, and even tho Chinmay did well to explain things, it wasn't too engaging.
